VIII. Criteria and method of evaluating tenders

1. When selecting the most advantageous tender, the Ordering Party will be guided by the following tender evaluation criteria:

Criterion	Percentage importance of the criterion	The maximum number of points an offer can receive for a given criterion
Gross offer price (C)	100 %	100

Points will be awarded according to the following rules: 1% = 1 point.

- a) The offer with the lowest gross price will receive 100 points.
- b) the points of other offers will be calculated according to the mathematical proportion with an accuracy of two decimal places:

$$C = (C_{\min}/C_{ex}) \times 100\% \times 100$$

where:

C - the number of points the offer will receive for the "Price" criterion

C_{min} - the lowest price among all valid and non-rejected offers

C_{ex} - the price of the examined offer

2. The price must be given in Polish zlotys, numerically, to two decimal places and in words. The price must include all costs of order fulfillment, including value added tax. The prices specified in the offer are valid for the entire period of validity of the offer and will be binding for the concluded contract. All other costs to be incurred by the Contractor during the execution of the order, and not included in the price of the offer, will not be additionally settled by the Ordering Party.
3. In a situation where foreign entities participate in the public procurement procedure, which, pursuant to separate regulations, are not obliged to pay VAT in Poland, the offers prepared by such Contractors include the price with a 0% VAT rate. The tax obligation in the case of purchasing goods or services from foreign entities, in accordance with the provisions of the Act on tax on goods and services, rests with the Ordering Party. When evaluating the offer in terms of the price criterion, the Ordering Party will add to the offer price of foreign entities, the amount of VAT and customs duties (if applicable - Contractors from outside the European Union), which are charged to the Ordering Party for the performance of the contract, to the offer price of foreign entities.
4. Prices quoted in a currency other than PLN for the purpose of tender evaluation will be converted by the Ordering Party into PLN according to the official average exchange rate published by the National Bank of Poland on the date of publication of the announcement to the Competitiveness Database. Average exchange rates are available at the following internet address: <http://www.nbp.pl/>
5. As a result of the assessment made according to the criteria indicated in par. 1, the offer may receive a maximum of 100 points. Scores will be rounded to two decimal places.
6. The offer which is not subject to rejection, and which receives the highest number of points during the assessment, will be considered the most economically and qualitatively advantageous.
7. This contract will be awarded to the Contractor not subject to exclusion and whose tender will receive the most points in the final scoring.
8. In the event of circumstances where two or more offers receive the same number of points, the Ordering Party shall request the Contractors to submit additional offers. Prices offered in additional offers cannot be higher than in the original offer.

1. The offer should be prepared on the form constituting Appendix No. 1 to the Request for Proposal.

The content of the offer should include information that the document is proprietary. The contractor is obliged to prove that the reserved information is a business secret. Accordingly, if the Contractor fails to comply with the above obligations, the Ordering Party will have grounds to consider that the reservation of a trade secret is ineffective and therefore it will treat the given information as unprotected and not a trade secret within the meaning of the Act on Combating Unfair Competition.
